

DISCLAIMER

The Saskatchewan Association of Rural Water Pipelines, Inc. maintains the manual and Web site to enhance public access to all participating Department's information. This is a service that is continually under development. We will strive to make every effort to keep this site current and to correct errors brought to our attention.

The documents on the web-site contain hypertext pointers to information created and maintained by other public and private organizations. Please be aware that we do not control or guarantee the accuracy, relevance, timeliness, or completeness of this outside information. Further, the inclusion of pointers to particular items in hypertext is not intended to reflect their importance, nor is it intended to endorse any views expressed or products or services offered by the author of the reference or the organization operating the site on which the reference is maintained.

The information provided in the manual or on the web site is only intended to be general summary information to the public. It is not intended to take the place of either the written law or regulations.

The user of the Manual waives and discharges the authors of the Manual, all applicable departments and all employees, offices and agents from any claim they may have based upon use or reliance on the Guide.

ACKNOWLEDGEMENTS

The Saskatchewan Association of Rural Water Pipelines, Inc. would like to acknowledge the following agencies/departments for the use of their reference material and for contributing to the development of the revised Manual:

PFRA/ARAP
Saskatchewan Environment
Saskatchewan Health
SaskWater

The Rural Water Pipeline Handbook For Saskatchewan

The Rural Water Pipeline Handbook For Saskatchewan has been compiled with the assistance of Saskatchewan Government Agencies and industries who have expertise in the field of rural water pipelines. This guide replaces and updates the Rural Water Handbook for Saskatchewan as compiled by PFRA in 2000. The intent of the revised Handbook is to provide new and existing rural water pipeline groups with basic design, installation and administration criteria for water pipeline organizations that are regulated in accordance to *The Water Regulations, 2002* and Drinking Water Quality Standards and Objectives through Saskatchewan Environment and Saskatchewan Health.
